Mrs. A. Masterson is in Walla Walla this week in attendance on her daughter, Miss Myrtle Thompson, who is ill in a hospital there.

A freak is to be seen at the farm of Frank Gagnon, five miles south of town on the reservation. It is a well developed pig, born with a litter of several others, but differing from them in this point: For one leg and foot it has a perfectly formed arm and hand, and on the remaining three legs, instead of feet, are hands. The mother sow refuses to accept her freak offspring, and Mrs. Gagnon is raising it "on the bottle." She has refused two offers, one of \$50 and one of \$100 for the animal.—Athena Press.

## HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Wanted—One hundred head of unbroken horses. I am located for the winter at the Dutch Henry feed yard, corner of Alta and Lillith streets, where I conduct a first-class training and sale stable. If you want to buy a horse I will take your order and select the best horse for you, or if you have a horse to sell I am well acquainted with the best buyers. I am well equipped to break and handle any horse from the finest blooded stock to the wildest and most desperate broncho. There is no horse but can be broke and be made to drive or work nicely if he be handled correctly. I have broke one hundred and twenty-three head in Pendleton, some of which had become desperadoes.
